

Source Simulation at Caltech/JPL

- Neutron star tidal disruption
Lindblom, Tohline (LSU), Vallisneri, . . .
- The stability of the Einstein evolution equations
Lindblom, O'Shaughnessy, Scheel
- Hyperbolic formulations of Einstein's equations + dynamical gauges
Alvi, Lindblom, Scheel
- Variational integrators for numerical relativity
Lew, Lindblom, Scheel, West, . . .
- Constrained Transport for numerical electrodynamics and relativity
Meier, . . .
