

Web Interface for Human-Generated Data Quality Flags

Nick Valles

Andrews University

March 19, 2008

Outline

- 1 History
- 2 Website Overview
 - Brief Tour of <http://www.andrews.edu/~tzs/flagency/>
 - Website Demonstration
- 3 Features to be Implemented
- 4 Conclusions

July 2007

Proposal to maintain a separate site for Human Generated DQ Flags for the S5 data run

Situations Meriting Data Flags

- Train passing by
- Aftershock
- Tumbleweed Bailing

Technical Notes

- Powered by PHP 5.0
- DQ Flags stored as ILWD files
- Located at <http://www.andrews.edu/~tzs/flagentry/>

Site Contents

- Flag Entry Form
- View Hanford/Livingston Flags
- Flag Query Form

Flag Entry · Site Flags · Search Form

S5 Elog DQ Flag Entry

Affected Detector:

Flag: If OTHER_ELOG enter suggested new flag name:

Short description:

If you have any questions or suggestions regarding this site, please send them to [tzs at andrews dot edu](mailto:tzs@andrews.edu).

Coming Soon

- Put a list of contributors on the search page
- Generalizing user search so that “an” returns names jANet, ANdy, ThornmAN, etc.
- Add the option to prune certain flags from display results
- Make search results directly downloadable in preferred format

- DQ Flag Site is functional
- Site is ready for a workout
- We are continuing to develop new features as needed
- Goal: Ensure site is running smoothly for eLIGO
